Diving at Catalina Island

Enjoy a day of stunning reefs and beaches in Catalina Island. In this tour you will explore the "The Wall" and "Aquarium," two reefs excellent for all levels of diving. The Wall is an impressive drop-off that stretches to the Caribbean Sea. Inhabited by corals and vibrant fish, it is a must for divers and snorkelers alike.

Our second dive spot, the Aquarium, is an enjoyable dive where lobster, yellow stingrays and moray eels are part of the attraction. After diving and snorkeling, you will relax with a tropical cocktail in our beach club while we prepare a delicious Dominican style barbecue. You will have free time in the afternoon to swim in the turquoise beaches of Catalina Island, enjoy unlimited drinks by the beach bar or simply relax in the sun.

Lobster may be added to your lunch at an extra price.
